PROFESSIONAL SUMMARY

Design Technology Leader with 12+ years of experience bridging creative direction, AI systems architecture, and enterprise technical infrastructure. Proven track record leading teams of 20+, deploying LLM pipelines and generative AI workflows, and managing large-scale Apple endpoint ecosystems.

SKILLS

AI Systems & Infrastructure: Multi-Agent AI Architecture, LLM Pipeline Engineering (Claude, GPT, Gemini), Model Context Protocol (MCP), Local Inference Engines (FastAPI, Async Queues), ComfyUI, Flux, Generative Workflows
Design & Product Operations: Figma, Adobe Creative Suite, Visual Identity Systems, Brand Strategy, E-Commerce Operations, Design Management
Enterprise IT & Infrastructure: Jamf Pro, Apple School Manager (ASM), MDM (Mobile Device Management), Endpoint Fleet Management, Enterprise Mac Systems Automation
Software & Technical: Python, React Native, Expo, REST APIs, Git/GitHub, Pedometer/Motion UI Engines

EXPERIENCE

Creative Technology Analyst & Mac Systems Lead Apr 2022 – Present
Pratt Institute Brooklyn, NY

- Lead creative technology infrastructure for a premier design institution, supporting 500+ active users.
- Collaborate with department leadership and faculty to integrate emergent AI workflows into the curriculum while ensuring adherence to IT policies and accessibility standards.
- Develop and deploy custom Python automation scripts and LLM pipelines into lab systems, significantly reducing friction for students, faculty, and creators.
- Architect and manage an enterprise ecosystem of 120+ Apple endpoints using Jamf Pro and Apple School Manager to maintain seamless studio operations.

Founder & Creative Director Jan 2023 – Present
White Crane Design LLC New York, NY

- Direct end-to-end creative strategy, brand identity systems, and design pipelines for enterprise clients and internal projects.
- Engineer and prototype generative AI workflows and custom local inference engines (FastAPI on NVIDIA RTX GPUs) to accelerate creative output and media generation.
- Launched and manage an e-commerce apparel brand, implementing a human-in-the-loop workflow combining generative tools with traditional design art direction.
- Architected a multi-agent AI framework leveraging distinct LLM agent personas (Claude, GPT, Gemini) to deliver dynamic, multi-perspective visual and conceptual feedback.

Technology & AV Operations Specialist Jun 2014 – Apr 2022
Pratt Institute Brooklyn, NY

- Oversaw IT infrastructure, campus-wide audio/visual technical operations, and specialized hardware labs across roles as Audio Visual Specialist and Information Technology Specialist.
- Partnered with faculty and administration to design high-availability creative spaces, maintaining optimal uptime for academic environments.
- Supported enterprise-scale hardware deployments and AV systems integration across multiple campus facilities.

CERTIFICATIONS

- Google AI Essentials — Google
- Jamf Certified Tech & Jamf Certified Associate — Jamf
- Apple Certified Support Professional (ACSP) — Apple

EDUCATION

Pratt Institute Brooklyn, NY
Master of Professional Studies (MPS) in Design Management. Expected 2027

Pratt Institute Brooklyn, NY
Bachelor of Fine Arts (BFA) in Interior Design. 2012
